Greetings fellow CCC members. Temperatures are rising as summer approaches, some of our part time residents have returned north to cooler temperatures, and we have received some much needed rain !!!! News is a little light again this month, so let's see what I can rustle up.

RECAP May's meeting, presented by Juliana Romnes, was excellent. She opened with a tutorial on the do's and don'ts of framing for exhibition and tips for showcasing images. It was very informative and well received. Her next area of discussion was a presentation on iPhone photography. Juliana did an excellent job and has received a lot of praise from members attending that meeting. Thank you Juliana!!!!

Taking the results of this meeting one step further, Donna Armstrong was so inspired, she went outside after the meeting and took this shot with her iPhone. But I can't stop there, Judy Schutz emailed me some images she took with her iPhone. Thanks Donna and Judy, nice work!!!! And last, but not least, Raphael Torres sent Ans this link on iPhone photography. Check it out.....

On that note, I'll close this short and sweet (LOL) newsletter. OOPS, almost forgot, thanks for the positive response to my request for newsletter images (Florida). I have received some really good images, but unfortunately it has been from just a few members. I have a variety of images, but not from a variety of members. Thanks to all who submitted images. They are greatly appreciated and really creative. Thank you!!! Oh what the heck, here are a few more for the closing of this newsletter.

Until _____
