Greetings to all. I guess I've been watching too much Sci-Fi lately, so the million dollar question is, "What is Sylvia's Abduction?" Take a guess. The answer will be at the end of the newsletter. On to a somewhat larger than lately newsletter.

**RECAP**-----August's meeting with Robert Wilson's presentation on Digiscoping proved to be very interesting and informative. The power of the digiscope and the clarity of the images produced is amazing. The part of his presentation that appealed the most to me, was the use of the digiscope with an iPhone and the phenomenal images it produces. Thank you Robert for a great presentation! Ans also signed up a new member at the end of the evening. Welcome Robert Yoshibo Shell.

Thanks to our “hanging crew”-left to right----Larry Wuerstlin(Ron Zeier's visiting cousin)  
Ron Zeier, Skip Lowery, Bill Speno & David Pruett.

Thank you to all of the participants and winners for making this show such a huge success. On a personal note I would like to interject something. Having once owned a Performing Arts studio and having been responsible for the production work, there is a lot of behind the scenes work that people take for granted. On behalf of myself and the club I would like to extend a huge **THANK YOU** to Ans and all of the volunteers who made this show happen. A lot of hours went into planning, signing in the entries, labeling and hanging the images, setting up and breaking down the reception, and yet to come, breaking down the show. Again **THANK YOU** to all!!!!!!

On **Tuesday, September 11** many members joined Ans for a field trip at the Casements. It was an interesting assignment. Firstly, the Casements' grounds are noted for providing a beautiful wedding atmosphere and our assignment was to photograph the grounds for a wedding brochure. The second assignment was Architecture, which also happens to be the assignment for this month's challenge. Afterwards Raphael Torres joined the group at the exhibit inside and gave his opinion on the 38<sup>th</sup> Annual Show and gave some useful tips and critiqued some of the images. Thanks Raphael!

**REMINDER**

Herb Paynter will be giving a **workshop on Tonality on Tuesday, October 16**. This is a **free** workshop and is tentatively set to be at the Bailey's. This workshop will not only benefit those using Photoshop & Lightroom but also those using ON1, NIK, Topaz Studio and any other post processing program. If you do not have a laptop, you may still attend and take notes. Please contact Ans to sign up and she will email you with all of the details.

**ANSWER:** I asked Sylvia what was her "Abduction." She smiled and told me that she was light hunting at one of the home improvement stores and took this shot under some lights hanging on display. How many of y'all got it right? Not me!!!!!! LOL
